

Calling all Writers!

Sensible Publishing is an established publishing house delivering materials to a wide range of existing customers who require teaching and learning materials to assist with the delivery of a wide range of educational and recreational courses. Courses are offered as part time evening and daytime sessions.

We are especially keen to recruit authors who can deliver resources for courses such as:

- ★ using IT to make greetings cards
- ★ watercolour painting
- ★ starting your own business.

Many people find making their own greetings cards very rewarding. Many people have PC's - so why not combine the two and make personalised birthday cards, wedding and anniversary cards using existing standard software on a PC.

Watercolour painting is enjoyed by many individuals, can you write 'help notes' or 'hints and tips' to support this type of recreational learning. This is also the type of material that could be used on a course teaching people how to start their own business. In addition to help notes and hints and tips you may have some ideas for exercises to build up certain skills areas, for example creating a business plan.

If you have some ideas for resources, contact our Development Manager, Peter Lanrod either by emailing him at writesRus@biz.uk or telephoning him on our free phone number 0707 5599.
