

TERRIFIC TOURS

Terrific Tours is now 25 years old and to celebrate this special anniversary we are launching a new service for our discerning clients. For the new Summer Season, we shall be offering our very special service Bespoke Holidays. This service has been set up to give our clients a chance of a tailor-made holiday of a lifetime without the outlay of time and energy usually required to arrange this type of holiday.

Dedicated Staff

For the clients who choose this service, we offer a dedicated representative who will talk them through the holiday they desire, helping them to make the choices that will make their holiday special and exclusive. This representative will then look at all the options available for travel, accommodation, excursions, car hire and anything else required and come back to them with all the choices available to them. All the drudgery, effort and time will be taken off the client's shoulders and will be done for them. Nothing will be too much for their personal representative – any changes in arrangements will be taken care of. Don't forget, if you want to travel to a number of destinations or countries, this will be no trouble.

No More Hassle!

Once you have made all your choices your representative will make all the travel arrangements. This will include any requests for first class or business class travel, use of any special lounges at the airport or travel terminus and an escort where applicable to make your journey effortless and enjoyable.

Top class hotel accommodation will be arranged at all stopover points and this will include a limousine with chauffeur waiting to whisk you off to your hotel.

Excursions

Once you arrive at your destination any excursions you wish can be arranged to fit in with individual requirements. Do you want your own guide to give you his/her undivided attention – just ask! Is there something you have always wanted to do? This is your chance. Don't wait, book now for the holiday of a lifetime.
