Learning to Program in C

Computing Centre Publications

www.ccpublications.co.uk

ict@ccpublications.co.uk

1. What is Programming?	4
<i>What is programming?</i>	4
<i>Overview of the C language</i>	4
<i>Syntax</i>	4
2. The Very Basics	5
<i>Writing .c files</i>	5
<i>Compiling & Running</i>	5
<i>Comments</i>	5
<i>White Space</i>	6
<i>The main function</i>	6
<i>Naming & keywords</i>	6
3. The First Program	7
<i>Code for 'Hello World'</i>	7
<i>Line by line explanation</i>	7
4. Variables	8
<i>What are variables</i>	8
<i>Types of variables</i>	8
<i>Declaring variables</i>	9
5. Basic I/O	10
<i>Printf</i>	10
<i>Scanf</i>	10
<i>List of format specifiers</i>	11
<i>List of Control Characters</i>	11
6. Basic operators	12
<i>Assignment</i>	12
<i>Addition</i>	12
<i>Subtraction</i>	12
<i>List of basic arithmetic operators</i>	13

<i>Subtle Complications</i>	13
7. Bringing it Together	15
8. Conditional Flow	16
<i>Logical Operators</i>	16
<i>If keyword</i>	17
<i>Else keyword</i>	17
9. More on Variables	18
<i>Arrays</i>	18
<i>Strings</i>	19
<i>Constants</i>	19
<i>Coercion</i>	19
10. For loops	20
<i>What are for loops?</i>	20
<i>Syntax</i>	20
<i>Example use</i>	20
11. While loops	22
<i>What are while loops?</i>	22
<i>Syntax</i>	22
<i>Example use</i>	22
<i>For Loops and While Loops</i>	23
<i>Do / While Loops</i>	23
12. Functions	24
<i>The Basic Idea behind Functions</i>	24
<i>Passing variables</i>	24
<i>The return keyword</i>	25
<i>Example</i>	25
<i>Global variables</i>	26
<i>Functions vs. Procedures</i>	27
13. Pointers	28
<i>What are Pointers?</i>	28
<i>Using the * and & operators</i>	28
<i>Pointer arithmetic</i>	29
<i>Pointers and arrays</i>	29
14. Bringing it together	31
<i>More complex example code</i>	31
<i>Explanation</i>	31
15. Basic Preprocessor	32
<i>#include directive</i>	32
<i>#define directive</i>	32
<i>#ifdef / #else directive</i>	34
16. Complex control flow	35
<i>The Switch Keyword</i>	35
<i>The Label / Goto Keyword</i>	36
<i>The Break Keyword</i>	36
<i>The Continue Keyword</i>	37
17. Dynamic Memory	38
<i>What is Dynamic Memory?</i>	38
<i>The need for Dynamic Memory</i>	38
<i>Using Malloc and Calloc</i>	38
<i>Using Free</i>	39
