

Cells and Tissues

ACROSS

- 2 Life process whereby animals produce offspring (12)
- 3 Structures in a cell where energy is released (12)
- 4 Cells are collected together to form _____ and a collection of these forms an _____ (7),(5)
- 5 All living things are made of these (5)
- 6 This type of cell does not have a cell wall (6)
- 8 This liquid is produced in respiration (5)
- 11 Process that allows plants to feed (14)
- 12 Organisms that only contain one cell (11)

DOWN

- 1 This life process allows living things to get energy from food (11)
- 5 This is what the cell walls in plants are made of (9)
- 7 Type of cell containing chloroplasts (5)
- 9 See 4 across
- 10 The size of a cell is limited by the ratio of surface area to this (6)
